PROGRAM INFORMATION

Established in 1993 as a partnership with the Ministère des Affaires Étrangères, the France-Berkeley Fund supports and promotes scholarly collaboration in all disciplines between the University of California and public research centers and institutions of higher learning in France.

Special consideration is given to projects involving **junior scholars**, projects such as **workshops** or **conferences** designed to generate new research strategies (especially in the human sciences), and projects that **maximize the number of researchers involved**.

ELIGIBILITY

The Fund considers projects jointly submitted by a **tenured** or **tenure-track professor** or a **permanent researcher** at **UC Berkeley** or **UC Davis** (postdocs are generally not eligible to apply), and a professor or permanent researcher at a French public research institution or institution of higher learning.

Previous grantees may apply separately with a new partner for a new project, as long as the previously granted project was completed prior to July 1, 2017. Teams of researchers who previously received a FBF grant **may not reapply together**, even if the proposed project is a new one. Researchers may submit a **maximum of one application** per funding round.

RULES AND RESTRICTIONS

Projects may be funded to a **maximum of \$12,000**. Projects **must be initiated between July 1 and December 1, 2019** and **must be completed within one year** of initiation.

The FBF **does not pay for release time for faculty**. Grants **cannot be used to purchase equipment** except for project-specific supplies that will be consumed over the course of the project. Funds **cannot be used to pay student or postdoc salaries or stipends, or to cover everyday living expenses** that would be incurred regardless of the project. Grants **may be used for short-term living expenses** for project-related travel.

NOTE: **This description must be in French in the French file, and in English in the English file.**
3. **Letter of intent (1 page max)**, signed by both project coordinators, indicating their commitment to collaborate and to observe the project timeline and calendar of expenses.
